

## Stub Pumps

Model: PTP-stub

- Suitable for Automation and Robotic Applications
- Models to fit 1L to 200L drums
- Dispensing guns and tip seal valve
- Twin ball pumping technology
- Ratio ranges 1:1, 3:1, 5:1 and 15:1
- Carbon steel or stainless steel
- Suitable for low/high viscosity liquids
- Resin Transfer from drums or jerricans
- Filling reservoirs automatically via high/low sensors
- Desiccant Moisture traps for hygroscopic liquids
- Pneumatic pump with air regulator and gauge
- Double acting for continuous flow
- Automatic low level cut out option
