

## Resin Injection Machines

### Model: MFS-GFH-80P

- Reservoir Capacities up to 40L with Stainless Steel Options
- Resin Mix Ratio Ranges 1:1 to 16:1
- Viscosity Ranges up to 500,000 cps
- Polyurethanes, Epoxy, Resins, Acrylics, Silicones etc
- Mobile for Remote Injection Applications
- Adjustable set shot up to 160mL at 1:1 ratio
- Air regulator/gauge for controlled dispense rates
- Dispense by set shot or by visual method
- High Pressure Injection Capability
- Accurate and repeatable shot with optional multi-shot counter
- Pneumatically Powered and Controlled
- Options:
- Heated Reservoirs, Stirrers, Low Level Controls,
- Automatic Reservoir Re-charge, Transfer Pumps,
- Anti-Drip Cut Off Valves, Disposable Mixing Nozzles,
- Electronic PLC Control
