

## Two Component Meter Mix Machines

Model: MFS MMD -100P

- Reservoir Capacities up to 40L with Stainless Steel Options
- Resin Mix Ratio Ranges 1:1 to 16:1
- Viscosity Ranges up to 500,000 cps
- Polyurethanes, Epoxy, Resins, Acrylics, Silicones etc
- Dispense lever operation or footswitch
- Adjustable set shot up to 160mL at 1:1 ratio
- Air regulator/gauge for controlled dispense rates
- Dispense by set shot or by visual method
- Shot counters available for multi-shot
- Accurate and repeatable shot
- Pneumatically Powered and Controlled
- Options:

Heated Reservoirs, Stirrers, Low Level Controls, Automatic Reservoir Re-charge, Transfer Pumps, Anti-Drip Cut Off Valves, Disposable Mixing Nozzles, Electronic PLC Control
